

Sprint 7 - User Acceptance Testing Report

User Acceptance Testing (UAT) was conducted to validate the core functionalities of the ClassIQ system. The testing focused on login, marks management, feedback handling, report generation, localization, and input validation. All test cases were executed successfully, confirming that the system meets user requirements.

TC ID	Test Case	Description	Result	Status
UAT-01	Valid teacher login	Teacher logs in	Dashboard loaded	Pass
UAT-02	Valid student login	Student logs in	Dashboard loaded	Pass
UAT-03	Find grades/report	Student views grades	Data correct	Pass
UAT-04	Save marks	Teacher saves marks	Saved correctly	Pass
UAT-05	Save feedback	Teacher saves feedback	Saved correctly	Pass
UAT-06	Export PDF	Generate report PDF	PDF readable	Pass
UAT-07	Language switch	Change UI language	Updated correctly	Pass
UAT-08	Language clarity	User selects language	Clear selection	Pass
UAT-09	Arabic RTL	Check RTL layout	Proper alignment	Pass
UAT-10	Input validation	Invalid inputs handled	Errors shown	Pass

Issues Identified: - Minor navigation issue for report card (fixed) - Arabic alignment improvements (fixed) - Input validation enhancement (fixed)
