

Usability Evaluation Report

Project: ClassIQ

Name: Dilmi Merenchi Kankanamge

No	Heuristic	Issue Description	Screenshot	Severity	Suggested Improvement
1	H1-1	The home page background is somewhat crowded and distracts users from key actions.		2	Reduce visual clutter and emphasize primary buttons
2	H1-2	No shortcuts like keyboard navigation or search suggestions.		1	Add search and keyboard shortcuts
3	H1-3	Error messages are not clearly visible.		2	Improve visibility of error messages

4	H1-4	Teachers have to rely on memory for grading criteria instead of having them visible during mark entry.		3	Show grading scale near the mark entry section
5	H1-5	System shows '0' for unentered marks, causing confusion.		3	Use empty or 'Not Entered' instead of '0'
6	H1-6	Back and Logout buttons are small and not noticeable.		2	Make navigation buttons more prominent
7	H1-7	Back button flickers when hovered near edges.		2	Stabilize button size and hover behavior

8	H1-8	System gives weak visual feedback when selecting a student.		2	Enhance feedback using colors or icons
9	H1-9	Help and privacy links are placed in low-visibility areas.		1	Make help section more visible
10	H1-10	Some labels on the dashboard are confusing or unclear.		2	Use clear and consistent wording
